Croix de St-André

J'ai installé de 2 passages à niveau non gardés.

J'ai acheté des croix de St-André équipées de leds chez Conrad.

Pour faire clignoter ces indicateurs, il suffit de mettre une led clignotante en série.

Croix de St-André Conrad 210153
Led Clignotante Conrad 173533

Une question? Une proposition d'amélioration?
